PROFILE

I am a dedicated software developer with a strong background in web application development. My expertise includes frontend technologies like Next.js and TypeScript, backend frameworks such as Prisma, NodeJs, Express, MongoDB and UI frameworks like shadcnUi. I have a solid understanding of integrating advanced functionalities and APIs to deliver robust, scalable solutions.

Known for my problem-solving skills and attention to detail, I excel in environments that value innovation and collaboration.

I am eager to contribute my skills and enthusiasm to a dynamic team where I can contribute to impactful projects and continue to grow as a software developer.
